# AHMAD CHOIRUDIN

**AI Trainer | Data Annotator | Web3 Researcher | Frontend Developer**

📍 Bojonegoro, East Java, Indonesia ✉️ ahmadc716@gmail.com 📱 +6285739409304 🔗 LinkedIn 💻 GitHub 🌐 Portfolio
🐦 X (@CubbieOG)

**PROFESSIONAL SUMMARY:** Freelance professional with experience across AI data projects, language evaluation, LLM assessment, Web3 and cryptocurrency research, content writing, community moderation, and frontend development. Familiar with AI evaluation workflows, content quality assessment, structured data, blockchain research, and digital community operations. Experienced in following detailed guidelines, conducting online research, evaluating information, and maintaining quality and consistency across digital tasks. Also brings previous experience in sales, merchandising, customer service, and retail operations. Continuously developing frontend development skills using HTML, CSS, JavaScript, Tailwind CSS, React, Git, and GitHub. Adaptable, detail-oriented, and comfortable working independently in remote environments.

## AI & DATA EVALUATION EXPERIENCE

**AI Trainer / Data Annotator** **2020 – Present**
*Freelance AI Training & Evaluation Projects | Remote*

- Work on AI training, data annotation, and language evaluation tasks through multiple remote platforms. Activities include reviewing AI-generated responses, assessing content quality, following project-specific guidelines, and supporting the development and improvement of large language models.
- Evaluate assigned content for relevance, accuracy, clarity, language quality, and adherence to instructions, depending on the requirements of each project. Apply structured evaluation criteria, identify inconsistencies, and maintain attention to detail when completing annotation and assessment tasks.
- Work with language-focused and technical evaluation workflows involving Indonesian, Javanese, and English-language content, as well as structured data and coding-related material where applicable. Adapt to different project requirements, evaluation rubrics, and quality standards while working independently in remote environments.

**AI Content Contributor / Content Writer** — **Curvia AI** **September 2026 – Present**
*Remote*

- Create original food recipe content to support the development and improvement of large language models for the Meal Nutrition project.
- Follow content requirements and project-specific guidelines.
- Organize recipe information to support AI training and evaluation workflows.

**AI LLM Evaluator / Data Annotator** — **CrowdGen by Appen** **December 2025 – Present**
*Remote*

- Engage with AI and LLM project opportunities involving language data quality and model evaluation.
- Follow project guidelines and assessment criteria when completing assigned tasks.
- Support data quality through structured evaluation workflows.

**AI Data Evaluator** — **Meridial Marketplace by Invisible** **October 2025 – Present**
*Remote*

- Engage with AI evaluation opportunities involving structured data and coding-related content.
- Review assigned material according to project requirements and evaluation guidelines.
- Apply attention to detail when assessing technical content and AI-generated outputs.

## AI & DATA EVALUATION EXPERIENCE (CONTINUED)

**AI Data Annotator / Data Partner** — **TELUS Digital** **July 2024 – Present**
*Remote*
- Engage with AI data and language evaluation opportunities.
- Follow project-specific guidelines and quality requirements.
- Support data quality and accuracy through assigned annotation and evaluation tasks.

**AI Trainer / AI Evaluator** — **Mindrift** **July 2024 – Present**
*Remote*
- Participate in AI training and evaluation tasks where assigned.
- Assess AI-generated content for quality, relevance, and adherence to instructions.
- Apply structured evaluation guidelines to support model improvement.

**Coding & AI Evaluator** — **Alignerr** **July 2024 – Present**
*Remote*
- Pursue coding-related and AI evaluation opportunities.
- Review programming-related outputs and technical responses against task requirements when assigned.
- Apply structured evaluation criteria to assess response quality.

**AI Data Trainer / AI Evaluator** — **Outlier** **June 2024 – Present**
*Remote*
- Previous experience and engagement with AI and LLM evaluation workflows.
- Assess model responses against task-specific instructions and quality standards where applicable.
- Review assigned outputs according to evaluation criteria.

**AI Data Annotator / Language Evaluator** — **RWS** **June 2024 – Present**
*Remote*
- Engage with AI and language-data project workflows.
- Follow language-specific and project-specific guidelines.
- Support data evaluation and quality improvement through assigned tasks.

## FRONTEND DEVELOPMENT EXPERIENCE

**Frontend Developer** — **Freelance Frontend Development** **May 2023 – Present**
*Remote*
- Build and improve responsive web interfaces using HTML, CSS, JavaScript, and Tailwind CSS.
- Develop personal projects focused on frontend development and Web3 applications.
- Use Git and GitHub to manage source code and track project updates.
- Deploy and maintain portfolio projects using Vercel.
- Continue developing practical skills in React and modern frontend workflows.

## WEB3 & CRYPTOCURRENCY EXPERIENCE

**Web3 Researcher / Cryptocurrency Researcher** — **Freelance / Independent Research** **April 2020 – Present**
*Remote*
- Conduct independent research across Web3, blockchain, cryptocurrency, DeFi, token ecosystems, and emerging blockchain projects.
- Research project documentation, tokenomics, airdrops, and ecosystem developments.
- Use blockchain explorers such as Etherscan to investigate on-chain activity and transaction information.
- Monitor project announcements and developments across Web3 platforms.
- Organize research findings to support independent analysis and content creation.

**Web3 Content Writer / Community Moderator** — **Freelance / Independent Projects** **March 2020 – Present**
*Remote*
- Create Web3-focused content covering cryptocurrency, blockchain, DeFi, airdrops, and project developments.
- Support online communities across Telegram, Discord, and X.
- Help maintain constructive discussions and share relevant project information with community members.
- Assist with community engagement through written communication and digital content.
- Help identify spam, suspicious links, and behavior that may violate community guidelines.

- Ensured product availability, visibility, and proper placement.
- Supported retail display standards and routine merchandising activities.

**Sales Assistant** — **PT Sumber Alfaria Trijaya** June 2011 – August 2013

*Jakarta,Indonesia*

- Supported daily retail operations and customer service activities.
- Assisted customers with product inquiries and purchases.
- Supported store organization, product presentation, and routine sales transactions.

## TECHNICAL & PROFESSIONAL SKILLS

**AI & DATA OPERATIONS**

AI response evaluation and LLM assessment • Data annotation and labeling • Content quality review • Language and linguistic evaluation • Guideline adherence and quality assessment • JSON and structured-data fundamentals

**WEB3 & RESEARCH**

Blockchain and cryptocurrency research • DeFi and tokenomics research • Airdrop research • On-chain exploration using Etherscan • Online research and information verification

**FRONTEND DEVELOPMENT**

HTML5andCSS3 • JavaScript • Tailwind CSS • React fundamentals • Git and GitHub • Vercel • JSON

**COMMUNITY & DIGITAL OPERATIONS**

Community moderation and engagement • Content writing • Customer communication • Telegram, Discord, and X • Remote collaboration and documentation

## SELECTED PROJECTS

**Airdrop Tracker** GitHub Repository

- Develop a web-based tracker to organize Web3 tasks and monitor progress.
- Use HTML, CSS, JavaScript, Tailwind CSS, JSON, and browser local storage.
- Organize project information and task status in a practical interface.

**Personal Portfolio Website** Live Website

- Present professional interests, AI-related work, Web3 research, and frontend projects.
- Build and deploy a personal website using modern frontend tools.

## LANGUAGES & EDUCATION

**Languages:** Indonesian (Native) | Javanese (Native) | English (Working proficiency; stronger in reading and listening, with developing spoken fluency).
**Education:** Vocational High School (SMK) — Major: Automotive Engineering
