PROFESSIONAL SUMMARY

AI training and data evaluation professional with hands-on experience in AI evaluation, data annotation, LLM response assessment, linguistic evaluation, transcription, semantic rating, and online research across remote AI projects. Experienced in evaluating AI-generated content for accuracy, relevance, faithfulness, coverage, fluency, completeness, and instruction adherence following strict project guidelines. Additional experience spans structured data (JSON), Web3 research, digital operations, community management, and frontend development with a strong proven ability to work independently in remote setups.

CORE COMPETENCIES

AI & LLM Evaluation LLM Response Evaluation, Human Feedback (RLHF), Instruction Following, Response Comparison, Error Identification, Quality Assessment.	Data Annotation & Quality Data Annotation & Labeling, Text Classification, Content Categorization, Quality Assurance, Structured Data (JSON) Review.
Linguistic & Semantic Evaluation Indonesian Language Eval, Relevance & Faithfulness Assessment, Fluency & Grammar Review, Meaning Preservation, Translation Review.	Audio & Research Analysis Audio Quality & Speech Evaluation, Multilingual Transcription, Fact Checking, Information Verification, Online Research.

PROFESSIONAL EXPERIENCE

AI Trainer / AI Evaluator / Data Annotator — Remote Freelance Projects 2020 – Present

- Evaluate AI-generated responses and content according to rigorous project-specific guidelines, rubrics, and quality standards.
- Assess model outputs for factual accuracy, relevance, completeness, faithfulness, coverage, fluency, and strict instruction adherence.
- Perform semantic rating, comparison between original and rewritten text, and detailed error identification (hallucinations, grammar, tone).
- Annotate, classify, and validate datasets for AI training, structured data, and JSON-based model improvement workflows.
- Execute speech evaluation, audio transcription, and multilingual language-quality assessment for voice models.
- Conduct structured web research and fact-checking to verify model claims and justify evaluation scoring.

Key Platforms & Projects: RWS · Mindrift · Meridial by Invisible · Outlier · CrowdGen / Appen · OneForma · TELUS Digital AI Data · Alignerr

Web3 & Digital Research Specialist — Freelance 2020 – Present

- Research blockchain protocols, cryptocurrency, DeFi, tokenomics, and Web3 ecosystem announcements.
- Analyze technical documentation and whitepapers; manage and engage online communities on Telegram and Discord.

PROFESSIONAL EXPERIENCE (CONTINUED)

Sales & Merchandising Roles — Various Companies

2011 – 2020

- Managed customer communication, field reporting, store operations, product presentation, and merchandising logistics.
- *Companies:*
- PT. Sumber Alfaria Trijaya (Sales Assistant)
- PT. Lintas Semesta (Merchandiser)
- PT. Arta Boga Cemerlang (Sales Motoris)
- PT. Revolusi Sejuta Rasa (Sales Merchandiser)

SELECTED ACHIEVEMENTS

- Successfully passed rigorous project-specific qualification assessments for international AI remote platforms.
- Evaluated complex multilingual AI datasets (Indonesian, English, Javanese) across text, audio, and structured data formats.
- Developed continuous independent remote-work operations since 2020 with a focus on data precision and guideline adherence.
- Built a modern interactive portfolio showcasing expertise in AI Evaluation, Data Annotation, Web3, and Frontend Web Development.

TOOLS & TECHNOLOGIES

Productivity & Workspace:	Notion, Google Docs, Google Sheets, Google Drive, MS Word, MS Excel
AI & Data Platforms:	Rating & Evaluation Interfaces, Data Annotation Suites, Transcription Workspaces, JSON Review Tools
Technical & Web Dev:	Git, GitHub, Vercel, HTML5, CSS3, JavaScript, Tailwind CSS, Basic React, DevTools
Communication:	Slack, Discord, Telegram, X, LinkedIn

FEATURED PROJECT

AI Evaluation & Professional Portfolio

[ahmad-choirudin.vercel.app](#)

Interactive digital portfolio demonstrating practical capabilities in LLM evaluation, text/audio data annotation, Web3 research summaries, and frontend project showcases.

EDUCATION & LANGUAGES

Education Vocational High School (SMK) Automotive Engineering — Indonesia	Languages • Indonesian: Native • Javanese: Fluent • English: Working Proficiency (Strong Reading & Written Comprehension)
